

Composition

- Baicapil - a combination of three plants (Scutellaria baicalensis, Triticum vulgare sprouts and Glycine max sprouts), which increases cellular energy and activates hair follicle stem cells, while protecting them against aging.
- Keracyn™ - is an active ingredient obtained from artichoke, which maintains the cohesion of the casing scales. As a result, the outer protective layer of the hair is preserved, which blocks the penetration of harmful factors. Thanks to this, the inner layer of the hair is better protected. The hair becomes more durable, shiny, disciplined and does not frizz.
- Caffeine - an active ingredient of plant origin. It improves microcirculation and blood supply, restoring the skin's nice and healthy color. It has excellent drainage properties, reduces dark circles and swelling under the eyes, significantly improving skin tension. Caffeine activates the hair bulbs and strengthens the hair structure.
- Fenugreek extract - works great for seborrheic and acne skin and for hair care. It not only reduces hair loss, but also accelerates the growth of new ones. It also soothes scalp irritations.
- Sea buckthorn extract - common sea buckthorn, also called sea buckthorn, is used in herbal medicine and cosmetics. This herb contains vitamins, flavonoids and organic acids that are valuable for health. Sea buckthorn oil is rich in palmitic acid, which contains youth vitamins and beta-carotene. It is used in cosmetics, it is an ingredient of anti-baldness preparations, it prevents dandruff and moisturizes the skin.
- Ginseng extract - strengthens the skin structure and stimulates epidermis renewal.
- Horsetail extract - due to the presence of numerous valuable compounds that improve the condition of the skin and hair, it is one of the most valuable phytotherapeutic and cosmetic raw materials. It contains the steroid saponin equietin, flavonoids: apigenin, kaempferol, quercetin and luteolin, phenolic acids, vitamin C and, above all, water-soluble and easily absorbable silica. It is silicon that makes horsetail an herb with unique properties. Large amounts of silicon are found in the skin, hair and nails. This element maintains the moisture of the connective tissue, provides the skin with elasticity, elasticity and a healthy appearance, and also prevents the formation of wrinkles.

INCI

Aqua, Cocamidopropyl Betaine, Disodium Laureth Sulfosuccinate, PEG 120 Methyl Glucose Dioleate, PEG-40 Hydrogenated Castor Oil, Propanediol, Arginine, Lactic Acid, Glycine Soja (Soybean) Germ Extract, Triticum Vulgare (Wheat) Germ Extract, Scutellaria Baicalensis Root Extract, Hydroxypropyl Guar Hydroxypropyltrimonium Chloride, Phenoxyethanol, Caffeine, Trigonella Foenum-Graecum Extract, Ginseng Root Extract, Hippophae Rhamnoides Extract, Equisetum Arvense (Horsetail) Extract, Cynara Scolymus (Artichoke) Leaf Extract, Lactic Acid, Parfum.
