
TREATMENT PROTOCOL

1. Remove make-up from the face, neck and décolleté
2. Prepare the skin for the treatment with the degreasing preparation Retix. C PRE-PEEL
3. Protect sensitive and irritation-prone areas (corners of the eyes, nose, eyebrows, corners of the mouth).
4. Depending on the client's skin condition, apply the selected peeling to the skin surface:
 - For dry and dull skin, select and apply LACTIC PEEL - leave on the skin for up to 10 minutes.
 - For skin that needs firming and brightening, select and apply CITRIC MANDELIC PEEL - leave on for up to 10 minutes.
 - For dry, sallow skin that needs tightening and brightening - apply LACTIC PEEL and leave on the skin for 5min. Perform neutralization with a dedicated product. Then apply CITRIC MANDELIC PEEL and leave on the skin for 3min.
 - For skins that require stronger anti aging stimulation- LACTIC PEEL dispense on a gauze pad and wipe the skin dynamically, immediately after that apply CITRIC MANDELIC PEEL with a brush on the skin, leave it for 3 minutes
5. Perform neutralization with a dedicated preparation and water.
6. Apply and spread the BOOSTER SERUM ampoule all over the skin. To increase the effectiveness of the treatment, the contents of the sterile serum ampoule can be injected under the skin using a micro-needle injection technique.
7. Apply Retix.C PHOTOPROTECTOR SPF 50+ protective cream to the skin.
